

# speedBOX CELLOFANATRICE UNIVERSALE

## UNIVERSAL OVERWRAPPING MACHINE - ENCELOFANAR UNIVERSALES

We are proud to present **SpeedBOX** our professional machine completely made in Italy born to overwrap any kind of packages with typical cigarette packages cellophane bending and solders.

Is great for cosmetics, parfumes, medicals, aliments, games, Jewell case CD, DVD/BluRay box or anythig else from your fantasy, you will be able to realize perfect packages like expensive industrials ones.

**SpeedBOX** is good for your small or medium packaging business allow you to save money in logistic and a very hard industrial process. With **SpeedBOX** you will be able to wrap packages in your house, restore damaged packages Thanks to cellophane bobines you will cut the film for any needs and make perfect seals.

There are 2 versions: **SpeedBOX-35** & **SpeedBOXwide-50** the difference is just the dimensions and the roll width them can drive. **SpeedBOX** is a completely manual unit but acquiring a discreet operation you will realize till 150 box per hour, times are variable due to Box dimensions. Overwrap alone your packages now you can do this with amazing prices!

**NEW**

## EXTREMELY VERSATILE DUE TO OPTIONAL MODULES

**Sealing Point Module:** you will be able to realize elegant solders sealing sides in one unique point like high-end cosmetic packages.

**Cutting Module:** is good when packages are always different you'll be able to continue cut the film adapting it to your needs without replacing bobines, great for samples or restoreing boxes.

**Strip Dispenser:** this option allow to insert a tear strip to your packages for a easy wrapping opening like candy boxes.

**100% made in Italy**

**GREAT FOR COSMETICS**
